

How CYBT will maximize value to token holders

Token Purchasers

Ceybit Platforms

Sri Lankan Population

1 Purchasers buy tokens at the crowdsale

Ceybit issues tokens to prospective buyers to secure funds to deploy exchange, wallet and gateway solutions

No avenue to obtain cryptocurrency easily

2 Purchasers can exit easily on the exchange or hold long term

Ceybit Exchange goes live and begins collecting transaction fees; used to buyback CYBT

CYBT liquidity adding

Order book taking

People flock to use the exchange to purchase cryptocurrency since it is the **first and only** exchange in the country

3 Traders on the exchange and CYBT holders are rewarded for participation and strengthening network

CYBT bought back from fees are redistributed to:

1. Traders on the exchange (25%)
2. Holders on the exchange (25%)
3. Ceybit Foundation (25%)
4. Burned (25%)

New users are given CYBT via airdrops, signup bonuses and referrals as incentive to join the ecosystem to create value

Portion of the CYBT bought back is burned
